or the deployment of the qualified smart grid system.

A copy of the ORS's Petition can be obtained from the Commission at the following address: Public Service Commission of South Carolina, Docketing Department, 101 Executive Center Drive, Columbia, South Carolina 29210. Additionally, the Petition is available on the Commission's website at www.psc.sc.gov and is available from Nanette S. Edwards, Esquire and Shannon Bowyer Hudson, Esquire, South Carolina Office of Regulatory Staff, 1401 Main Street, Suite 900, Columbia, South Carolina 29201.

Any person who wishes to participate in this matter, as a party of record with the right of cross-examination should file a Petition to Intervene in accordance with the Commission's Rules of Practice and Procedure on or before February 27, 2009, and indicate the amount of time required for his presentation. Please include an email address for receipt of future Commission correspondence in the Petition to Intervene. Please refer to Docket No. 2008-447-E.

Any person who wishes to testify and present evidence at the hearing, when scheduled, should notify the Docketing Department, in writing, at the address below, the Office of Regulatory Staff, at 1401 Main Street, Suite 900, Columbia, South Carolina 29201, on or before February 27, 2009, and indicate the amount of time required for his presentation. Please refer to Docket No. 2008-447-E.

Any person, who wishes to be notified of the hearing, but does not wish to present testimony or be a party of record, may do so by notifying the Docketing Department, in writing, at the address below on or before February 27, 2009. Please refer to Docket No. 2008-447-E.

PLEASE TAKE NOTICE: Any person who wishes to have his or her comments considered as part of the official record of this proceeding **MUST** present such comments, in person, to the Commission during the hearing.

Persons seeking information about the Commission's Procedures should contact the Commission at (803) 896-5100.

NOTICE OF FILING

DOCKET NO. 2008-447-E

Petition to Establish
Docket to Fulfill the
State Requirements of
the Energy Independence
& Security Act of
2007

The South Carolina Office of Regulatory Staff (ORS) has filed a Petition to Establish a Docket to Consider Implementing the Requirements of Section 1307 (State Consideration of Smart Grid) of the Energy Independence and Security Act of 2007 (EISA) with the Public Service Commission of South Carolina (the Commission). Section 1301 of EISA provides that "it is the policy of the United States to support the modernization of the Nation's electricity transmission and distribution system to maintain a reliable and secure electricity infrastructure that can meet future demand growth...which together characterize a Smart Grid." According to the ORS's Petition, a "smart grid" is a distribution system that allows for flow of information from a customer's meter in two directions - into the house to thermostats, appliances, and other devices, and from the house to the utility. Further, the smart grid includes a variety of operational and energy measures, including smart meters, smart appliances, renewable energy resources, and energy efficiency resources. Section 1301 of EISA also supports increased use of digital information and control technology to improve reliability, security, and efficiency of the electric grid.

Section 1307(a)(16) of EISA provides guidance to states regarding their considerations of smart grid investments. According to Section 1307(a)(16)(A) of EISA, each state shall consider requiring that, prior to undertaking investments in nonadvanced grid technologies, an electric utility of the State demonstrate to the State that the electric utility considered an investment in a qualified smart grid system based on appropriate factors, including, total costs; cost-effectiveness; improved reliability; security; system performance; and societal benefit. Section 1307(a)(16)(B) requires each State to consider authorizing each electric utility of the State to recover from ratepayers any capital, operating expenditure, or other costs of the electric utility relating to the deployment of a qualified smart grid system, including a reasonable rate of return on the capital expenditures of the electric utility.
